Advanced Broadcast Monitoring Solution at IBC

Actus Digital will be exhibiting at IBC - Hall 4.A91 - RAI, Amsterdam (9th -13th September), and are launching their new Silverlight Advanced T/S Analyser solution there.

SilverLight integrates all recording, monitoring and verification capabilities into one system. This includes a browser based state-of the-art UI, that integrates powerful compliance recording, tagging, rating analysis, clips creating for Internet, and commercials tracking. This solution responds today to your needs for tomorrow. The system can handle multiple audio tracks and multiple S/T.

Also check out Actus QualiTV, Remote Broadcast Verification and Monitoring Systems by clicking [here](#).

Richard White from Kane Computing will be available at IBC on the 12th September for meetings with UK customers and Actus.

If you would like to arrange a meeting with KCL/Actus click [here](#).

Although the deadline for free exhibition tickets is past you can still get one by going to www.ibc.org/registration and enter customer ticket number **5728**.
