Mobile Surveillance

Fast and easy surveillance from almost any mobile device

Smartvue Mobile Surveillance APP Third Party Cameras

All Smartvue Mobile Surveillance APPs support many common network cameras directly. Here is a list of some supported cameras and settings:

Camera Model: Most Axis Cameras:

Possible URL: <http://<IP ADDRESS>/jpg/image.jpg>

Camera Model: AXIS (2100, 205, 206, 206M, 206W, 207MW, 211, 213ptz, 221, 241S, 241Q)

Possible URL: <http://<IP address>:port/jpg/image.jpg>

Camera Model: AXIS 205

Possible URL: <http://<IP address>:port/axis-cgi/jpg/image.cgi?camera=1&resolution=320x240&compression=25>

Possible URL: <http://<IP address>/axis-cgi/jpg/image.cgi?resolution=640x480&camera=1&compression=20>

Camera Model: AXIS 240

Possible URL: <http://<IP address>/fullsize.jpg?camera=1>

If you want to change the default Axis camerasetter HTTP: port 80 to port 8001. Then you would access your camera via this URL. If you are on the other side of a router, then forward port 8001 to the camerasetter IP address.

Possible URL: <http://<IP address>:port/halfsize.jpg?camera=4>
If you wanted to use NO-IP DDNS service and you choose the url "CamUniversal":

Possible URL: <http://CamUniversal.no-ip.com:port/halfsize.jpg?camera=1>

Camera Model: AXIS 2100

Possible URL: <http://<IP address>/cgi-bin/image640x480.jpg>

Possible URL: <http://<IP address>/cgi-bin/image320x240.jpg>

Camera Model: Most DLink Cameras: <http://<IP ADDRESS>/image.jpg>

Camera Model: D-Link DCS-2000 & DCS-2100+

Possible URL: <http://<IP address>/cgi-bin/video.jpg>

Camera Model: DigiLan TV7204

Possible URL: <http://<IP address>:port/cgi-bin/video.jpg>

Camera Model: Genius IpCam Secure 300

Possible URL: <http://<IP address>/image.jpg>

Camera Model: Panasonic BL-C30A

Possible URL: <http://<IP address>:port/SnapShotJPEG?Resolution=320x240&Quality=Motion>

Resolution=320x240&Quality=Motion

Camera Model: Panasonic WV-NP240

Possible URL: <http://<IP address>/cgi-bin/camera>

Camera Model: Airlink101 AIC250

Possible URL: <http://<IP address>/image.jpg>

Camera Model: Trust NW-7100

Possible URL: <http://<IP address>/image.jpg>

Camera Model: Solwise SEC-MJCAS-210IR

Possible URL: <http://<IP address>/Jpeg/CamImg.jpg>

Camera Model: Sony RZ30

Possible URL: <http://<IP address>:2001/image>

Camera Model: Trendnet

Possible URLs:

<http://username:password@host:port/image.jpg>

<http://host:port/image.jpg>

<http://<IP address>/image.jpg> (Model TVIP100)

Note: If your camera is not listed here, it has not been tested, but may still work with Smartvue Mobile. Enter the complete URL to the image name

(for example <http://<IP address>/image.jpg>).

Camera Username & Password

Use the following format (for username and password):
<http://username:password@<IP address>>
