HD Multi-Format Video Player

Product Part Number Z3-MVP-01

EXPERIENCE H.264 1080p PERFORMANCE TODAY!

The **Z3-MVP-01** is a high definition, low cost, network-enabled media player. Designed to excel at playback of networked video and audio streams as well as locally stored content, the **Z3-MVP-01** is the ideal solution for monitoring networked IP cameras, digital signage, video kiosks and media adaptors.

Features:

- Decode from stream or local storage
- Video Outputs: Composite, Component, HDMI
- On-board video scaler provides full screen with all resolutions
- Audio Outputs: Headphone
- Ethernet interface
- SD Card for software updates and local storage options
- USB interface
- Small footprint only 130mm x 120mm x 22mm
- Based Upon Texas Instruments TMS320DM36X DaVinci Processor

Applications

IP Video Security and Surveillance
Digital Signage Player/Video Kiosk
Industrial Video decoder
Remote Monitoring/Closed Circuit TV

Software Control:

- Control via RS-232 serial port
- Software communication interface via console port supports Z³'s easy to use **zPlayer** multimedia software protocol. **zPlayer** enables complete control over content playback such as looping, playback on external command, ...etc.

Performance:

- Supports H.264 (MPEG-4 AVC) HP, MP and BP at up to 1080p30
- MPEG-4 SP/ASP & MPEG-2 1080i30
- Supports all resolutions up to 1080p30
- Supports SD, SDHC and USB stick
- Low power consumption of 2.5W
