

Ateme and KCL at NAB

Ateme will be exhibiting at NAB, in Las Vegas on the 16th to 19th April, and I will be there to support UK customers such as yourself.

I am not allowed to tell you exactly what will be demonstrated as it is linked to some press announcements at the show but it will include transcoding (MPEG2 to MPEG4) and also multi-channel HD encoding not demonstrated by anyone else to date.

We would welcome the opportunity to meet with you privately to discuss Ateme's products roadmap and your particular needs. If this is of interest please let me know what date(s) and time(s) would be convenient.

If you have not made a final decision yet on whether to go or have not sourced your visitor tickets, we have a FREE VIP registration service by using the VIP Code shown below or register direct (no need to type the code) on Ateme's web site at <http://www.ateme.com/events.php>

I look forward to hearing from you regarding your attendance at the show.
