## Smartvue visionary network video surveillance technologies arrives in the UK

Cheshire, July 2009, Kane Computing Ltd (KCL) has signed a dealer agreement with Smartvue Corporation of Nashville USA to sell their Smartvue® range of network video surveillance systems.

The best way to predict the future is to invent it and since 1996 Smartvue Corporation has been one of the leading innovators in the wireless network video industry. The company commercialized the world's first wireless network video recorder, 802.11N network camera, H.264 in camera video compression, and self configuring network video platform. The company has published more than two dozen patents and continues its heritage of innovation with Smartvue S8.

Smartvue S8 offers a complete and fully integrated professional network video system with wireless and wired cameras, network video recorders, and remote access built in, there is nothing else to buy.

Smartvue S8 cameras include 2 Megapixel (1600x1200 pixel) sensors to see more than 6 times the detail of a VGA camera. Smartvue video cameras and recorders offer integrated 802.11N wireless for up to 5 times the range of other wireless network cameras.

Smartvue S8 cameras include a microphone and speaker with integrated two way audio. The free online VOIP service makes it easy to talk to anybody from anywhere in the world - right through your browser.

Smartvue S8 network video recorders are available with 1 Terabyte hard drives so you can store more. S8 cameras use H.264 video compression that use up to 5 times less bandwidth than most other network cameras.

It is possible to Manage and view up to thousands of S8 systems from one online web interface at InsightServer! This peer to peer Smartvue service makes remote access from almost any PC or cell phone fast and easy.

## Smartvue visionary network video surveillance technologies arrives in the UK

"I am very excited to be able to bring this revolutionary solution for video surveillance and online video to the UK" said Richard White, Managing Director of KCL.

Martin A. Renkis, Founder/CEO of Smartvue Corporation said "We make innovative visual technologies elegantly simple. Smartvue Corporation creates the world's most elegant network video surveillance solutions. Its products are used by many of the largest corporations and most prestigious organizations worldwide. The company has been honored with Best of Show and Innovations awards at CES, as well as highlighted on the Discovery Channel, Forbes and in Wired Magazine".
